

I have a problem playing a campaign game, in the next pictures I will show what I do when I want to start a campaign; pls tell me where I am wrong or what I should do to make it right.

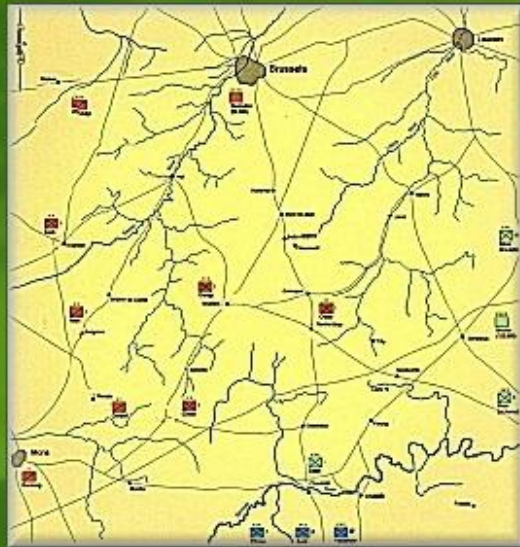

First of all I start a campaign game clicking the button and then save the new campaign with a name

Then I choose a campaign clicking OK

Then I click Ok again with these selections

CAMPAIGN OVERVIEW

Narrow Historical Path - Begins June 15, 1815; Ends June 18, 1815. This campaign only includes the historical path followed by Napoleon. Some differences are included later in the campaign depending on performance in earlier phases. - Napoleon has returned from Elba. Arriving at the southern coast of France he has successfully garnered supporters as he marched to Paris. The Emperor's return was met with less enthusiasm in the capitals of Europe. All Europe has declared him an outlaw and plans were drawn for an invasion of France. Troops have been promised from across the continent. In June an army composed of British, Netherlanders, and numerous German

SITUATION

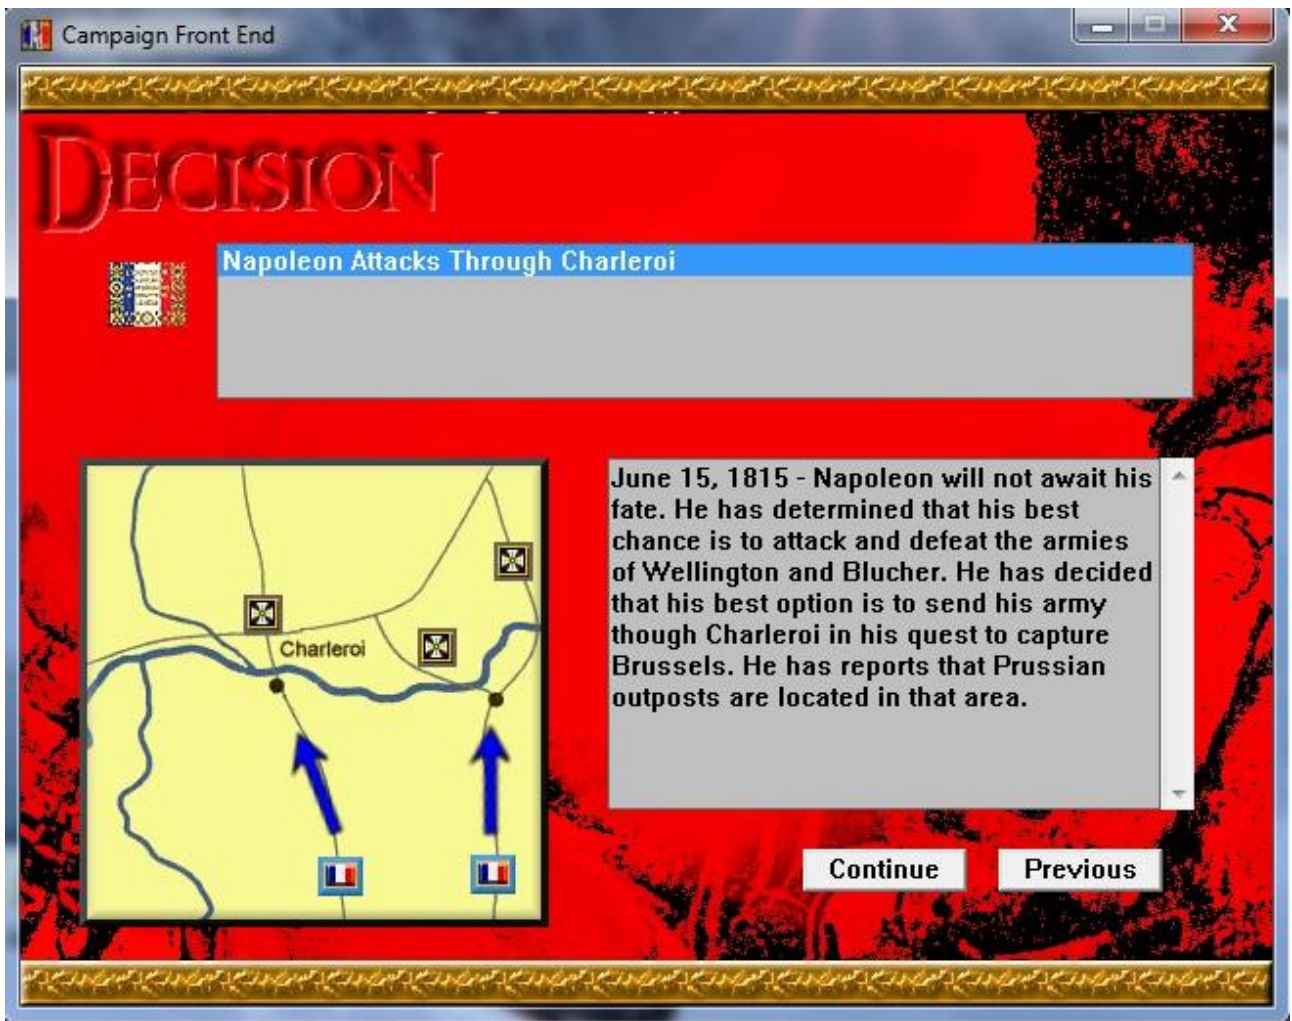

Advance through Chaleroi

June 15, 1815 - Waterloo Campaign - historical campaign path - Napoleon has positioned his army near Charleroi. It is his intention to strike at the juncture of Blucher's Prussian army and Wellington's Anglo-Allied army. The Prussians have three of their four korps massed nearby on the Sambre River. Wellington's army is more dispersed and located generally to the north and west of Blucher.

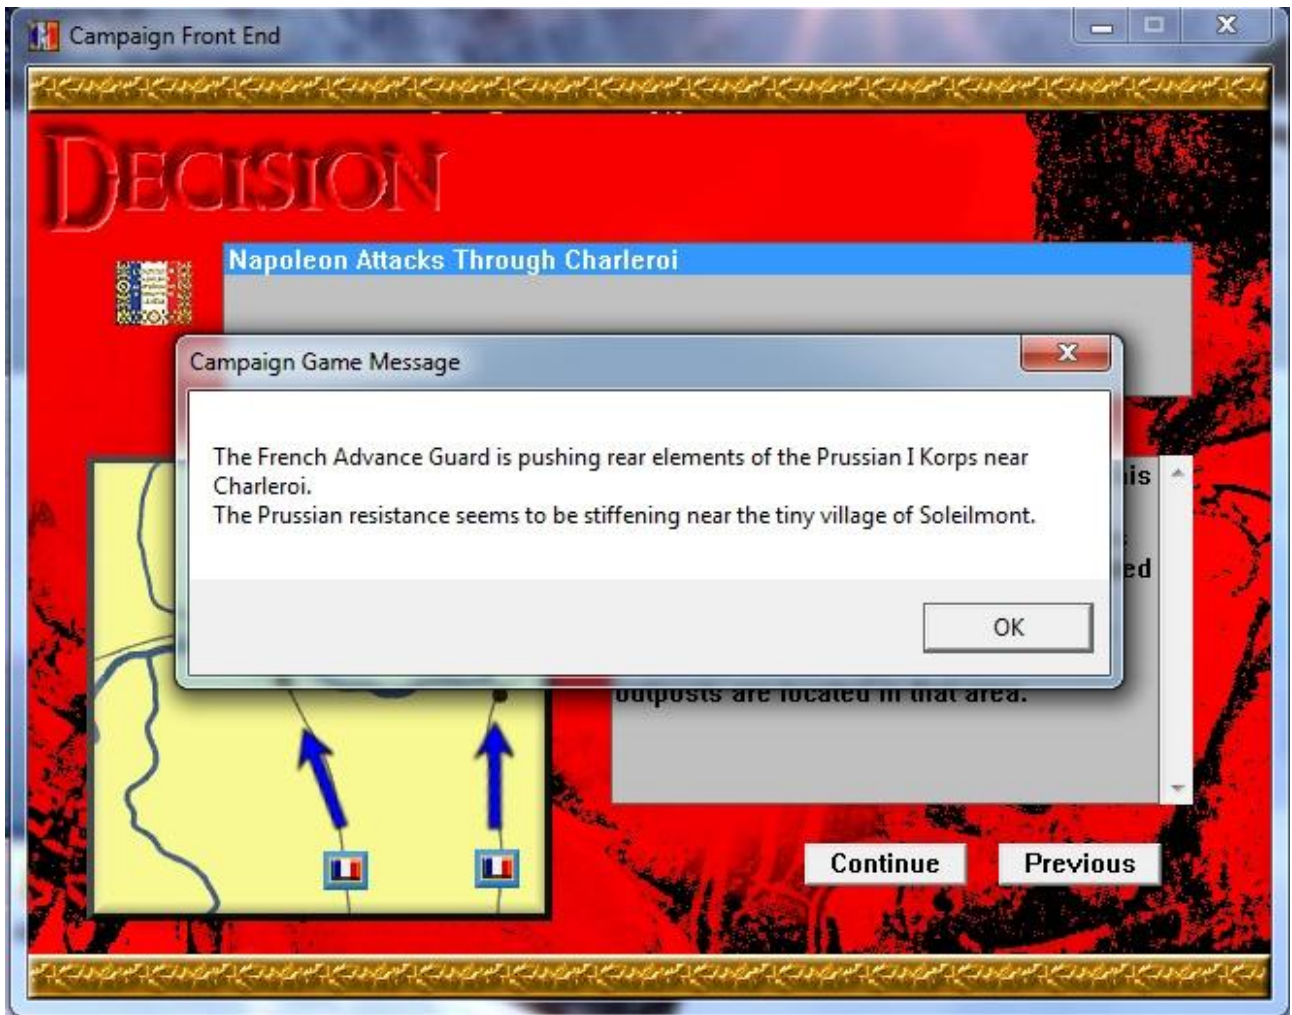

Continue

Previous

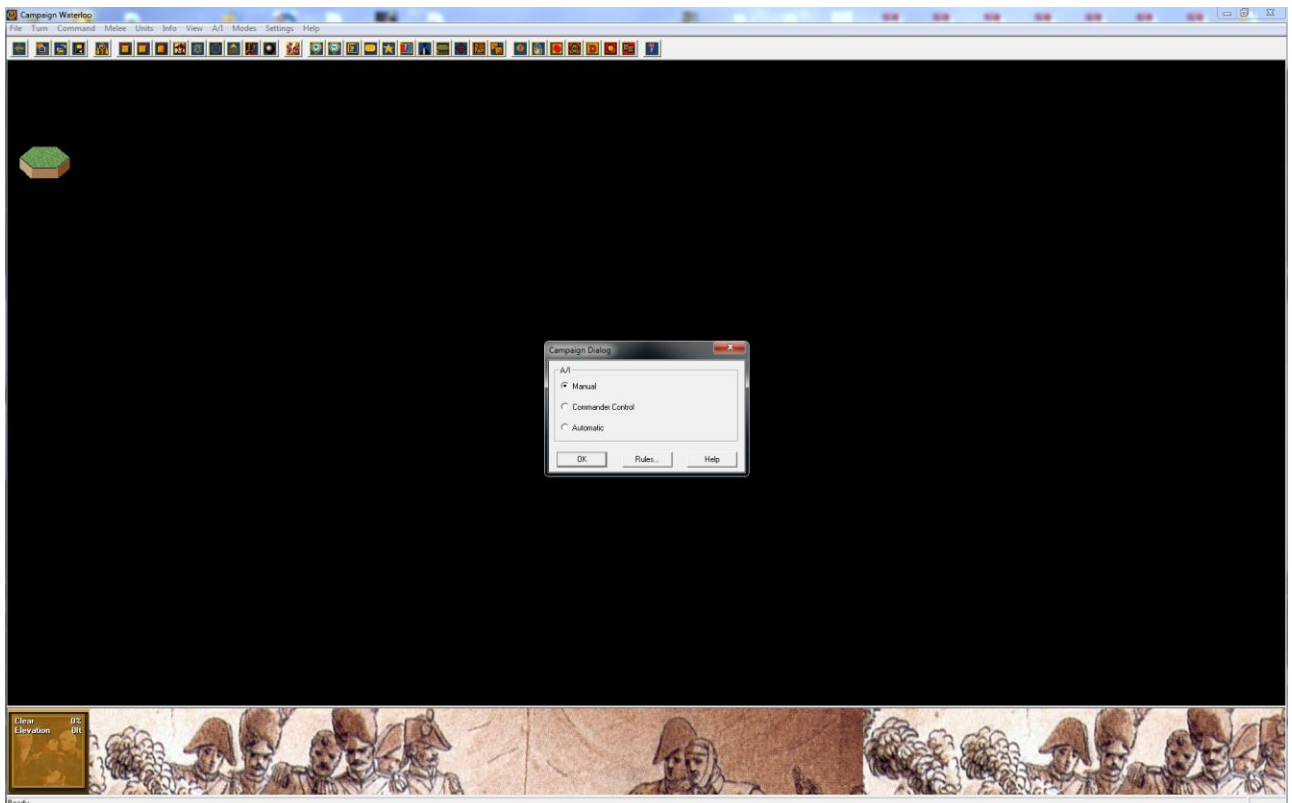

I click continue 2 times

And one more time continue

Then I click ok

And finally I play the battle; the most time I cannot complete the battle in just 1 session, so I have to save the game and reload it hours, or day after to end it.

When finally I end the game winning it (yes most time I win a decisive victory) there is no more campaign to play; just like it was a battle and not a campaign.

Now how can I play it like a campaign? Where I am wrong? Which is my mistake?

Thanks for all the help that you would give to me .

Ciao

Antonio

p.s. sorry for my English I know it's terrible
